GOVERNMENT OF ORISSA
DEPARTMENT OF ENERGY

(A)

75

NO. R&R-II-18/05. 11715 /EN., Bhubaneswar, Dated: 28/11/05

16/11/05

From:-

Shri B. Mishra,
Joint Secretary to Govt.

To

The Secretary, Works Deptt./S.E.(Ele.Circle,(R&B),
Bhubaneswar.

Sub:-

Conservation of Energy.

Sir,

I am directed to say that Govt. of India have under taken various measures for conservation of Energy as required under the Energy Conservation Act, 2001. One of the factor is that, as pointed out, GLS lamps consume excessive power as compared to the C F L S for the same intensity of light. Most of the power in the G L S lamps goes for heating and is dissipated which needs to be avoided.

copy You are, therefore, requested to encourage the use of C F Ls in Govt. Buildings, public places and offices under your control instead of using G L S lamps for conservation of Energy.

Yours Faithfully,

Joint Secretary to Government.

emo No. 11716 /EN., BBSR, Dated: 28/11/05
